Play the game, build relationships, and deepen your faith in a country that lives and breathes futbol. The goal of the Charlotte Eagles is to train and equip Christian athletes to intentionally use the game of soccer as a platform for sharing their personal faith in Jesus Christ. And beyond that we want to help train locals to do the same. We believe that an Eagles' tour can have a lasting impact on how you view both the game of soccer and your individual walk with God.

● WHAT

Women's Open Tour is for current and recently graduated female college soccer players.
